UPDATE SINCE MAILING on C4K TO FLORENCE

We have recently been informed that the previously closed section of trail C4k to Florence will be opened for the upcoming season.

The landowner has graciously allowed us one more year to use his fields to connect to Clark Dr. as we work with NYS DEC to construct a permanent re-route for next season.

It is imperative that EVERYONE stays on the marked trail or we will lose it. Without this section you would be unable to get directly to Florence from Redfield.

While this is great news, it leaves us with a ton of work to be done in the next few days so that trails will be ready to open as scheduled. Please come out on Saturday to lend a hand. We have stakes to pound, blowdowns to clear, branches to trim, and water to drain in several areas. Bars, hammers, shovels, brushing tools, screw guns and warm clothes as well as UTV's and utility sleds are needed. Subs and drinks for lunch will be provided by the club.

C4 TO RYAN RD and OSCEOLA

As most of you are aware the club had to re-route a small section of trail C4 last year to get to Ryan Rd. where we connect to the Osceola club. Osceola had issues on their end as well and they were not able to complete their side of the connection for last season.

Osceola has now been able to complete a new connector trail for the upcoming season. Coming from Redfield: Take C4 to Ryan Road. Take a left on Ryan Road. Continue down the side of Ryan Road across the steel deck bridge and all the way to the T-junction at the end where it meets Prince Brook Road. Take a right on Prince Brook Rd. and the new trail will be about 1/8 mile up on the right.

While following Ryan Road, stay on the right shoulder and DO NOT ride up into the yards or fields along the way!!

FALL BBQ

On Saturday October 7th the club held our third annual fall Chicken / Pork Roast at the Cheese Factory. Thanks to: The Cheese Factory for hosting the event and hiring the band. GROOMERS

Our 2008 Tucker 2000 has returned from Track Inc. in Vermont where it spent a couple months receiving a major rebuild. It is looking and running good and ready to roll.

Our 2004 Bombardier BR180 has received a bit of attention as well and we are awaiting a visit from the Prinoth mechanic to address an oil leak that was recently discovered.

We have received and approved bids for a new groomer and are awaiting state grants approval to move forward with the purchase of a new machine. We are hoping to be able to take delivery of a groomer in January and a drag in February, but dealing with the state it's hard to say for sure.

Once we receive the new equipment our BR180 and our older Trailsetter drag will be up for sale.
